

103. A kit of parts comprising:

- (a) a toxin-resistant and/or toxin-inhibitory SNARE or recombinant polynucleotide capable of expressing said toxin-resistant SNARE wherein the SNARE is resistant to proteolysis by the said clostridial toxin (toxin-resistant SNARE) and/or is capable of inhibiting the clostridial toxin (toxin-inhibitory SNARE (or recombinant polynucleotide capable of expressing said toxin-resistant or toxin-inhibitory SNARE; and
- (b) an inhibitor of the clostridial toxin to which the said toxin-resistant SNARE is resistant.

#### REMARKS

In accordance with the above amendments, a claim of priority based on the corresponding PCT application has been added and certain headings customary in the U.S. and descriptions of the drawing figures have also been added.

The original slate containing claims 1-47 has been cancelled in favor of a revised slate containing claims 48-103. Claims 48-103 remain under consideration.

Respectfully submitted,

NIKOLAI & MERSEREAU, P.A.
